

## Level 5:

Terminate after 14 days of all clients and/or staff members being non-symptomatic.

**Where:** Arcus facility

**Who:** Client(s) is/are POSITIVE for CoVID-19.

**Why:** Client(s) could be spreading or exposing staff members(s) and client(s) to Co-VID-19

**Controls:** DROPLET AND CONTACT Precautions. Site-specific scrubs, gowns and shoes for staff. Gloves. DISPOSABLE procedure masks and face shields on all the time.

All clients contained to their bedroom. When entering the client(s) bedroom additional measures will be taken and they are as follows: gowns. If client is not able to isolate-staff will wear the gown over their scrub all the time.

- **NO VISITORS until cleared by Public Health**

---

Sanitize hands then Put on the mask at the door before entering the facility.

### Scrub Procedure

(If scrubs are not available staff need to bring site-specific clothing and follow the same procedure):

- Come to work wearing your own clothing
- Prior to handling or touching surfaces, go to the “designated change room” to put on the freshly clean “scrubs”. Any clothing worn under the scrubs must be covered and not exposed
- Your clothing is to be placed in a personal bag and stored in the “designated change room”.
- Wash your hands
- At the end of your shift go to the “designated change room” and remove the scrubs, turning them inside out and leave it in the designated bin/bag for washing
- Wash your hands, put on your own clothing, at the door change your shoes and leave the premises without touching any surfaces Shoes:
- Bring a pair of shoes that will only be used inside this site and keep them at the door you enter through. Change your shoes when you enter the building to walk to the “designated change room”

**Gloves and Disposable Mask: (See Posted Directions for proper PPE Donning on and off).**

- Mask are to be put on before changing into scrubs and taken off after changing out of scrubs. (Gloves are to be changed regularly with use (when soiled)

### Entering client’s bedroom:

- A gown will be outside of each client’s bedroom for each staff. Please see video (on Arcus website for instructions) or Posted Direction at each site.
- Faceshield will be worn over the mask at all times. Nurse will provide education and training to staff.

## Level 5:

**Terminate after 14 days of all clients and/or staff members being non-symptomatic.**

### **Arcus Facility:**

- Choose a “designated change room” that is not occupied, if possible not a bathroom.
- Provide a place for staff to store their clothing, it must be a minimum of 6” (inches) off the floor Use gloves to pick up the used scrubs and gowns and wash them separately from any other household laundry. Use hot water and laundry soap, dry in a dryer (not air dried) and return to “designated change room”.
- Please provide a container for the clean scrubs to be stored.

### **Staff:**

- Staff will continue to work and self-monitor for symptoms, unless directed by Public Health Officer to isolate.
- Staff will call 811 if symptoms developed and report to Arcus immediately.
